

WHO IS GROW UP N TECH

We are a non-profit 501 (c)(3) organization with a mission to expose students (k-12) to careers in Computer Science through hands on training and workshops.

Our motto is Inspire. Equip. Innovate. Our goal is to expose students to professions in Computer Science and help them discover and develop a passion for science, technology, engineering and math (STEM). Workshops includes:

- + Website design
- + Mobile app development
- + Robotics
- + Video Production
- + iPad filmmaking
- + Intro to Photoshop
- + Rockets
- + Build an app
- + Programming
- + Computer Repair

WHAT WE DO

Weekend workshops: Workshops are held on Saturdays morning usually from 10am to 2pm. Workshops includes: Website Designing, Mobile App Development, Game Designing, Computer Repair, Intro to Photoshop, Intro to Dreamweaver, Intro to Raspberry Pi, Intro to Arduino, Rocket Building, Robotics and other STEM related subjects.

Camps: Not only do we offer summer camps, we provide camps when school is out such as spring and winter break. Summer camp last the whole summer, while the spring and winter break camp last one week.

Teams: GUNT compete in Robotics and Rocket competition. Other competition includes Future City, SeaPerch, Under Water ROV, Global Space Balloon Challenge and any other competition that falls within our mission statement.

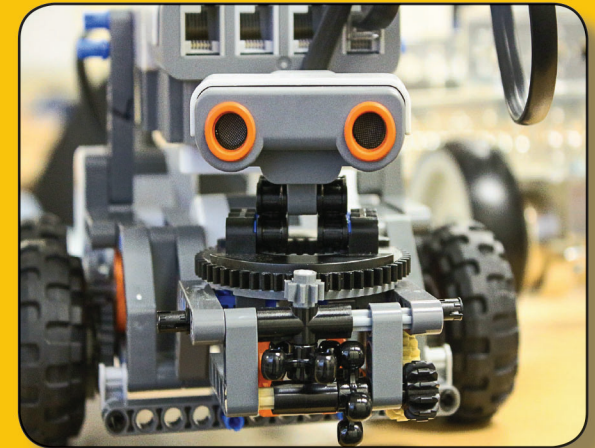

HAVE FUN WITH US

HELP US GROW

Help us grow by making a contribution and volunteering your time and expertise to equip students with the tools and resources they need to succeed in the profession of Computer Science.

We believe if we equip students with the tools and resources to succeed, they will be inspired to become innovators, entrepreneurs and leaders in their communities.
